General description

A winter trail system consists of a series of loops built on the lower slope of Lazy Mountain. There are varying levels of difficulty from novice to expert. The upper trails are novice and the lower trails are expert.

For those with a bit more energy, the Lazy Mountain Trail, which is a hiking trail in the summer, can be snow-shoed or hiked depending on the snow conditions.

The trails and trailhead offer beautiful views of the Matanuska and Knik River valleys.

Trail uses

The Lazy Mountain Recreation Area is maintained for non-motorized recreation. The winter trail system is groomed weekly, when snow conditions are favorable, by the MSB Parks and Outdoor Recreation Division for cross-country skiing. Snowshoeing and skijoring are also allowed.

***Take note**

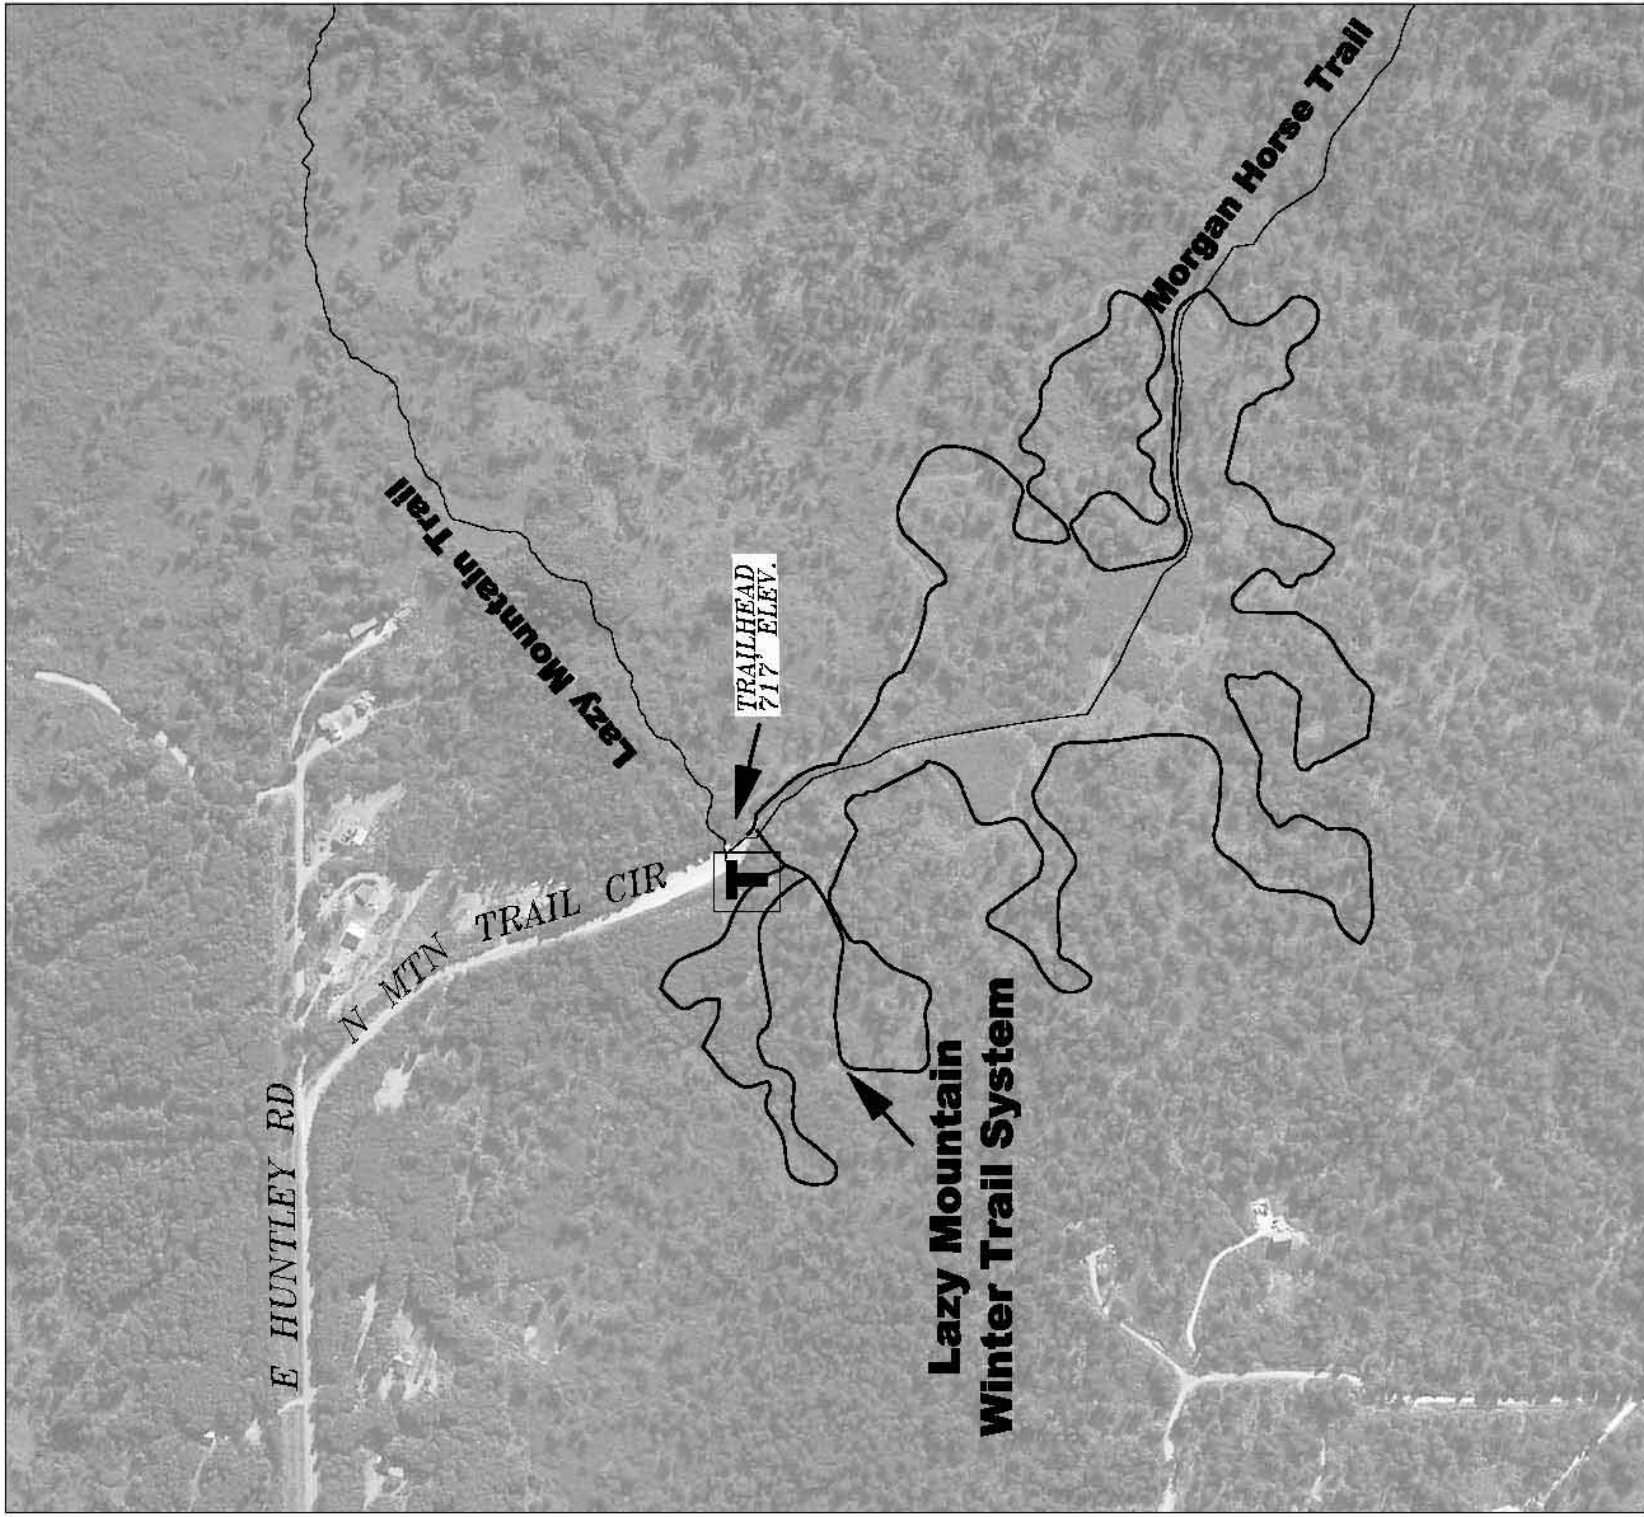

Moose frequent this area in winter. Make your presence known. Keep dogs on leash and/or under your control.
